*The International Golf Course in Copenhagen*

  
A SIGNATURE GOLF COURSE

# EUROPEAN CHALLENGE TOUR 2015

## Welcome to Royal Golf Club

Royal Golf Club is a first-class international heathland golf course. The course features a tremendous variety where careful and creative design has led to an exiting game for golfers of all levels.

The variety of tees ensure that all levels of golfers enjoy a suitably challenging experience. Many greens are guarded by water features, which reward the thoughtful and strategic player. Throughout the course, each element has been positioned carefully and is expertly detailed to make for a thrilling experience.

The magic of the 18 holes lies in the involved dialogue between the golfer and the landscape. A dialogue that provides the golfer with a different experience each time the course is played.

The Sundberg family enlisted Ron Kirby, former Head Senior Designer for Jack Nicklaus for a decade, to design the course. After considering the course routing, to adapt as many of the old trees as possible and the lowland native areas in a beautiful and natural way, the construction began in 2008. The final result was presented at the opening in 2010.

We hope you enjoy your golfing experience with us and we are delighted to welcome you to our course. After your round, we invite you to unwind in our superb bar and restaurant, presenting stunning panoramic views of the course and the beautiful skyline of Copenhagen City.

Warmest regards,

Morten Sundberg

# The Danish Monarchy - History

*Having existed for more than 1000 years, the Danish Monarchy is one of the oldest in the world.*

## HM The Queen of Denmark

Margrethe Alexandrine Þorhildur Ingrid, Her Majesty The Queen, became Queen of Denmark in 1972. HM Queen Margrethe II was born on 16 April 1940 at Amalienborg Palace as the daughter of King Frederik IX (d. 1972) and Queen Ingrid, born Princess of Sweden (d. 2000). The Queen's motto is "God's help, the love of the People, Denmark's strength".

## Dannebrog - The National flag of Denmark

The legend states the origin of the flag to the Battle of Lyndanisse, also known as the Battle of Valdemar, near Lyndanisse (Tallinn) in Estonia, on June 15, 1219. The battle was going badly, and defeat seemed imminent. But then, right when the

Danes were about to give up, the flag fell from heaven. Grasping the flag before it could ever touch the ground, the king took it in his hand, and proudly waved it in front of his discouraged troops, giving them hope, and leading them to victory. The myth is clear. The flag, Dannebrog, was given to the Danes from God himself, and from that day forward, it was the flag of Denmark and the Danish kings.
